Aras PLM Test Drive Fact Sheet
Microsoft Azure Trial

Description

The Aras PLM Test Drive gives your organization free subscriber access to the Aras Innovator Framework as well as a set of pre-installed applications for 30 days. You will be provided with a URL to a Microsoft Azure instance which allows you to continue to use Aras Innovator when you finish the free 3-day Aras PLM Essentials training course.

What's Included

When you access your activated Microsoft Azure instance, three types of Aras databases are pre-installed and are ready to use.

Training Database

You will use the Training Database(s) in the instructor-led 3-day Aras PLM Essentials course. This database contains pre-installed Parts and Documents so you can learn about the basic features of Aras Innovator including Part and Document Change Management, Project Management and Scheduling as well as Secure Social Visual Collaboration which allows you to easily exchange ideas with other users in a controlled environment.

Sample Database

This database is pre-installed with the Aras applications suite which include Microsoft Office Connector, Component Engineering, Requirements Management and the CAD Converter tool. A set of demonstration Parts, CAD Documents, Documents, Change items, Projects and Visual Collaboration content is also included so you can see how these applications work with sample data.

Solutions Database

This database is pre-installed with all of the applications described above that you will use as your working environment so you can create your own data records to see how Aras PLM can quickly adapt to your environment. A single CAD Connector integration is also for evaluation.

Subscriber Access

During the trial period you will also receive all of the benefits of a paid Aras subscriber which include:

Feature License Access

Subscriber only access to all of the features of the applications listed above.

Unlimited Live and Online Technical Support

By calling +1 (978) 691-8900 and selecting option 2 or emailing support@aras.com Monday – Friday, 8am to 6pm ET

Aras Subscriber Portal

Access to the Subscriber Knowledge Base, online training for Aras applications and Subscriber only content such as full length presentations from Aras Community events.

Aras Subscriber Concierge

Your primary contact for any questions you may have about Aras to make sure that you are completely satisfied with all aspects of your trial subscription. Your Concierge is Darian Morgan, and you can reach her at dmorgan@aras.com or (978) 691-8948.

Trial Period

Your 30 day trial period begins when you attend the free 3-day Aras PLM Essentials course. At the end of the trial period you have the option to continue using what you have created in the databases provided by becoming a paid Aras subscriber. Your Aras contact will follow your progress as you work through the trial period and is always available to answer any questions.
