

# Aras Program Management

## Aras Training Seminar Description

### Course

Aras Program Management

### Length

1 day course

### Format

Interactive combination of lectures, exercises, and labs

### Attendees

People who will use the solution

### Description

The training course combines lectures, exercises, and labs to provide an understanding of how to work with the Aras Program Management solution. Attendees learn how to utilize project templates with Work Breakdown Structure [WBS] elements, activities and milestones from the PMI project management principles through hands on exercises. Attendees will have a working knowledge of schedules, tasks, deliverables, and project collaboration.

### Objectives

At the end of the course, participants will be able to:

- Work with project templates with WBS elements, activities, and milestones
- Understand project schedules based on forward, backward, and milestone scheduling techniques
- Work on tasks and collaborate on deliverables
- Attach deliverables and files within a project collaboration workspace
- Interpret program progress from executive dashboard roll-ups

### Agenda

Topics	
Solution Overview	Inbox and Deadlines
Users, Identities, and Security Permissions	Completing Tasks
Project Templates	Attaching Deliverables
WBS Elements, Activities, Milestones	Updates and Rollups
Project Assignments	Dashboard Status & Reports
Forward, Backward, and Milestone Scheduling	Structured Lab

### Prerequisites

Participants should have a basic understanding of the project management fundamentals and the PMI concepts
