

# Aras Innovator Workflow

## Aras Training Seminar Description

### Course

Aras Innovator Workflow

### Length

1 day course

### Format

Interactive combination of lectures, exercises, and labs

### Attendees

People who need to set up and administer workflows

### Description

The training course combines lectures, exercises, and labs to provide an understanding of how to create, participate, and administer workflow processes. Attendees learn how to define workflow maps and designate important parameters with hands-on exercises. Topics include branching, looping, delegation, escalation, and item versioning. The course provides attendees with a working knowledge of configuring and managing workflow processes within Aras Innovator.

### Objectives

At the end of the course, participants will be able to:

- Set up and configure a workflow process
- Activate and participate in workflow processes
- Create and modify workflow maps
- Define important workflow parameters
- Establish workflow email notifications

### Agenda

Topics	
Workflow Overview & Terminology	Receiving Assignments, Promoting, and Voting
Defining Workflow Maps	Delegating and Refusing Assignments
Activity Creation and Assignment	Email Notifications
Workflow Paths & Processes	Process Variables and Escalation
Looping and Branching	Pre- and Post- Action Method Capabilities
Versioning Items	Structured Lab

### Prerequisites

Participants should have completed the Aras Innovator Administration course
