

Agile Path Forward

MIGRATION PROGRAM

Move Ahead Confidently

The Agile Path Forward migration program from Aras provides a simple way to move ahead for Agile customers that want to escape the uncertainties resulting from the Oracle acquisition and seek to avoid:

- ▶ Paying for an Oracle Forced Upgrade
- ▶ Running Unsupported Agile PLM Software

Companies using Agile have a clear roadmap that minimizes the time & disruption of moving to the next generation PLM business solutions with Aras. Now, your business can move ahead with confidence.

Clear & Simple

The migration program includes proven software solutions and comprehensive migration services, and because the Aras Innovator solution suite is a Microsoft enterprise open source offering there are no software licenses to purchase from Aras.

Additional Advantages

Aras delivers a PLM solution based on modern Internet service-oriented architecture [SOA] technology providing unmatched flexibility along with free access to additional business solutions including phase-gate program management, product risk management, and RoHS environmental compliance.

Engineering Systems

Aras Innovator Enterprise Solutions

Aras Innovator® enterprise solutions help performance driven companies accomplish strategic initiatives to deliver bottom line business results.

Aras solutions are web-based and provide your business with a process-oriented approach to manage, measure, and improve critical processes from concept through development, introduction, and operations.

Powerful Enterprise Solutions People Ready Simplicity

Easy to use enterprise web solutions provide a familiar Microsoft experience. Aras Innovator solutions are inherently integrated across solutions providing seamless access to relevant information for business people.

Extend Existing Systems Leverage Previous Investments

Aras Innovator can be used to complement and extend existing ERP, CRM, and legacy systems. Avoid the costly, complex programming required by conventional legacy enterprise systems to address company specific competitive practices.

Contact Aras today for more information or visit us at www.aras.com

“ The bottom line for Fox is that Aras Innovator enables us to serve our customers better, improve our quality, and significantly reduce our costs all at the same time. ”
