

Company Summary:

Aras is a fast moving high tech start-up that delivers innovative software solutions to leading companies such as Motorola, XEROX, and TEVA Pharmaceuticals. Aras software helps companies collaborate during product development using open source and Web 2.0 technologies. Aras has leading VC investors and provides excellent hands-on start-up experience with broad responsibility and exposure.

Aras is located north of Boston in Andover and is an easy commute for someone living in the Boston/Cambridge area or New Hampshire with a car (reverse commute makes travel fast and very little traffic).

Internship Position:

Graphic Design and Web Site Developer (Paid Position)

Responsibilities:

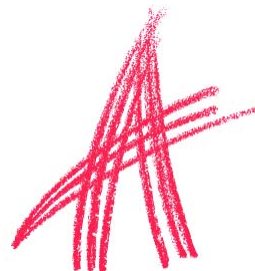

You will be responsible for working on the corporate Web site to expand and enhance the ability to convey information and encourage social networking via Web 2.0 technologies. You will implement modern Internet search strategies to promote the company's flagship product and online community. Your responsibilities will include working on Web site implementation and revisions including advanced Google search/SEO techniques, site graphics and other activities.

Skills:

- Proficiency with Photoshop, Illustrator and Microsoft Web technologies
- Hands-on knowledge of HTML, ASPX, CSS, XML and Javascript
- Interest in learning the latest Google search / SEO techniques and approaches
- Ability to identify and analyze issues then code, test and debug/fix
- Creative ability, aesthetics, and layout
- Competence in working with Internet systems and Microsoft Office necessary
- Detail-oriented with big picture perspective
- High level of energy, enthusiasm, initiative, and responsibility
- Can work both independently and as part of a team
