

Aras Corp Job Posting

Aras Corporation is a fast moving high tech company that delivers innovative software solutions to leading companies such as Motorola, Lockheed Martin, Rolls-Royce, Delphi and Xerox. Aras provides businesses with product lifecycle management (PLM) applications to improve new product development for greater collaboration and faster time to market. The software is an advanced Web based SOA technology available as Enterprise Open Source providing Aras with a highly disruptive position in the marketplace and a solid business strategy. Aras is located north of Boston in Andover, MA just off I-93 and is an easy commute for someone living in or around the Boston area.

Position: Technical Trainer & Course Developer

Location: Andover, MA

Responsibilities:

- Develop and maintain technical training materials for Aras Corp software solutions for both classroom and web-based delivery; including administrator, train-the-trainer, developer, and end-user level materials.
- Deliver customer, partner, and internal technical training in a classroom setting.
- Evaluate customer feedback to identify potential areas of improvement for the training curriculum. Use innovative ideas and best practices to consistently improve the quality of training offerings.
- Development includes materials for instructor-led training and virtual instructor-led (Web) training: including course lecture and presentation materials, course handbook, hands-on labs, exercises, exams, and instructor guides.
- Approximately 70% course development and 30% training delivery, with 20-25% travel.

Skills & Qualifications:

- Minimum Bachelors degree in education or instructional design or related work experience with computer science, computer engineering, electrical engineering, or computer education degrees.
- Must have 4+ years of technical training development & delivery experience.
- Must be interested in developing training course materials and serving as a trainer. Desire to build and manage a profitable training business is a plus.
- Working knowledge of Microsoft Windows, SqlServer, and .NET programming languages is a plus.
- Must have strong written and verbal communications skills with an ability to work independently or in a team environment.
- Desire or ability to develop web based training materials is also a plus.
- Motivated by a fast paced, team environment.
- Must be authorized to work in the United States on a full-time basis for any employer
-

Aras offers a competitive compensation package, and an entrepreneurial environment where success is rewarded and innovation is encouraged. No relocation is offered for this position. No phone calls please. Qualified applicants should respond via email to kschroer@aras.com.
