A lot has been happening here at Aras. In this issue we'll share an enterprise customer success, online workflow highlights from a recent conference, and the achievement of a major milestone for Aras!

### Aras Milestone -- Over 5,000 Downloads!

Since making the switch to the Microsoft enterprise open source format, the rate of adoption has been incredibly strong and the pace of recent downloads is an indicator.

Over a matter of weeks more than 5,000 copies of the Aras Innovator enterprise software solutions have been downloaded by companies just like yours.

We recognized that businesses everywhere need proven enterprise software solutions for product development, quality compliance, and business process management workflows.

We just did not anticipate that corporations large and small would respond so quickly to freely available enterprise business solutions on Microsoft. Thank you and we're proud that our solutions are helping your companies achieve results.

### DEMO RECORDING - Aras Workflow Creates Buzz at Software 2007 Conference

At the recent Software 2007 conference, an International event showcasing the latest enterprise software solutions, the Aras online Workflow drew significant interest as we performed demonstrations of the Microsoft enterprise open source solutions.

Graphical workflow, easy-to-use online forms, file attachments, email notifications, secure participation, Web services for integration, and highly flexible real-time process configuration functionality generated a buzz on the show floor.

People were excited about how Aras complements and extends existing systems to streamline and automate business processes quickly & easily for companies of all sizes.
