

## Enhancements in Version 10.0 SP5

- Printing**  
 Introduced support for printing to PDF from the main search grid, Forms, and the Gantt Chart.
- Firefox 31 ESR**  
 Introduced support for Firefox 31 ESR on the client.

## Issues Fixed in Version 10.0 SP5

Table 1: Framework

| Required | Issue #  | Description   |
|----------|--|---|
| Yes      | 031619   | Introduced support for Firefox 31 ESR on the client in addition to support for Firefox 24 ESR.  |
| Yes      | 022913,<br>022914,<br>021021,<br>018939,<br>027595,<br>030575,<br>030865 | Printable View support has been enabled for forms, the main search grid, and the Project Gantt chart. <ol style="list-style-type: none"> <li>Forms will print only the contents of the Form frame, and not the relationships views attached. Content will be printed “as displayed” and will not attempt to show content not visible in a field through the user interface.</li> <li>The main search grid will print content “as displayed” and will not attempt to show content not visible in a cell through the user interface.</li> <li>The Gantt chart will mimic the behavior of the previous functionality. All of the Gantt chart frame will be printed. The Project Tree frame will print all rows, but only the columns visible in the user interface will be printed.</li> </ol> Printable view will not send any content directly to the printer, but rather will write the information to a PDF based on the displayed layout. Content larger than one page will overlap with the previous pages to prevent loss of content when the PDF is generated. |
| Yes      | 022801   | Improvements to Form rendering  |
| Yes      | 026863,<br>026874  | Updates to the code responsible for uploading of files to the vault server. These changes are focused on better handling of error conditions that may occur during the file upload.   |
| Yes      | 027207   | Improved performance of structure browser for very large structures.  |
| Yes      | 028433   | Fixed condition that could cause setTabVisible to fail when attempting to show multiple hidden relationship tabs programmatically.  |
| Yes      | 029214   | Fixed a use case where the “Rebuild Keyed Names” action can fail from Firefox.  |
| Yes      | 027713,<br>027713  | Fixed issues that could prevent removeRelationship from executing in client Methods   |
| Yes      | 026710   | Fixed an error in the Form editor user interface that could prevent changing the data source for a Field in Internet Explorer 11  |
