aras INNOVATOR® **VERSION 9.2.0 SP1**

Aras Innovator 9.2.0 SP1 is a patch release. Its primary objective is to provide a prepackaged vault replication feature. Its secondary objective is to fix a small number of critical issues identified by Subscribers.

- **Enhancements in 9.2.0 SP1**

  o Prepackaged vault replication feature introduced for the benefit of distributed installations with the requirement for high performance file access. Vault replication can be invoked on demand, on file change, on user- defined schedule or manually.
  o Vault replication configurable rules provided to allow the definition of different replication modes for different vaults, file types, file ownership, logged-in user or based on any other user defined filter.

- **Affected Versions**

  Aras Innovator 9.2.0

- **Issues Fixed in 9.2.0 SP1**
