

Aras Innovator Configuring Solutions

Aras Training Seminar Description

**Course**

Aras Innovator Configuring Solutions

Length

5 days

Format

Interactive combination of lectures, exercises, and labs

Attendees

Administrators and/or developers who build (or modify) solution applications

Description

This 5-day hands-on training course combines lectures, exercises, and labs to introduce the Aras Innovator enterprise application framework. Attendees will design and construct solution applications based upon low-code platform, with its user-friendly modeling engine, that incorporates custom properties, forms, life cycles, workflows, files, and supports versioning. Participants will learn how to create administrative items including user accounts, security permissions, sending notifications, managing file vaults, as well as how to configure custom business rules. Additional topics include defining Extended Classification, Configurable User Interface, and packaging your solutions for export.

Objectives

At the end of the course, participants will be able to:

- Navigate the Aras Innovator system and perform business item queries
- Set up user accounts with security permissions
- Create new business item types and properties
- Define a user interface with interactive forms
- Use extended classification with extended properties
- Establish versioning, relationships and lifecycles for business items
- Define and manage file vaults with automatic replication
- Create a workflow process that includes e-mail notifications
- Implement poly items
- Configure custom menus and toolbars
- Package a solution for export

Prerequisites

Completion of the Aras PLM Essentials course or previous experience using Innovator is required to attend this session. Attendees should have a solid understanding of how items are created and managed using Innovator.

Schedule, Cost & Registration

Aras University course schedules, locations, and registration can be found on the Aras website at <https://www.aras.com/en/training/training-classes>.

Course cost is \$3,125 US per attendee *

* Regularly scheduled courses are FREE for customers with an active Aras subscription
