# Aras Innovator What is new in V12?

*Aras Training Seminar Description*

**Course**

What is new in V12?

**Length**

1 day

**Format**

Interactive combination of lectures, exercises, and labs

**Attendees**

Administrators and/or developers who build (or modify) solution applications and have experience with V11

## Description

This 1-day hands-on training course combines lectures, exercises, and labs to provide an introduction to the Aras Innovator enterprise application framework. Attendees will learn about the enhancements of V12 compared to V11. Equipment and time for comprehensive hands on is foreseen.

## Objectives

At the end of the course, participants will be able to:

- Use the new UI effectively
- Navigate to the options they want to use
- Handle favorites for Items as well as for Saved Searches
- Evaluate BOM Effectivity
- Visualize data via Query Builder (QB) and Tree Grid View (TGV)
- Adapt the BOM Structure via TGV
- Adapt the UI to individual needs via Configurable User Interface (CUI) including the new options
- Find additional information in new customer documents

## Prerequisites

Attendees should be familiar with Aras Innovator V11.
