2D and 3D Embedded Viewing with Interactive BOM Highlighting

The screenshot displays a software interface with two main windows. The left window shows a 2D technical drawing of a device with a red box highlighting a specific component. A red arrow points from this box to a text annotation: "Click on Positions in Drawings will select the assigned BOM line". The right window shows a 3D perspective view of the same device, with a red box highlighting a yellow component. A red arrow points from this box to another text annotation: "Click on the Part selects the assigned BOM line in the BOM View".

Below the 2D drawing is a table with the following data:

順番	パーツ番号	リビジョン	パーシ	名称	タイプ	数量	スタート	データ実換	参照値
103	LFZF 2015	A	1	フタジグブロック	/Part/Component/Mech 2		Preliminary		
104	SC6	A	1	パネル	/Part/Component/Mech 1		Preliminary
