

ACE Copenhaguen– Browser Independant UI

Browser Independant UI

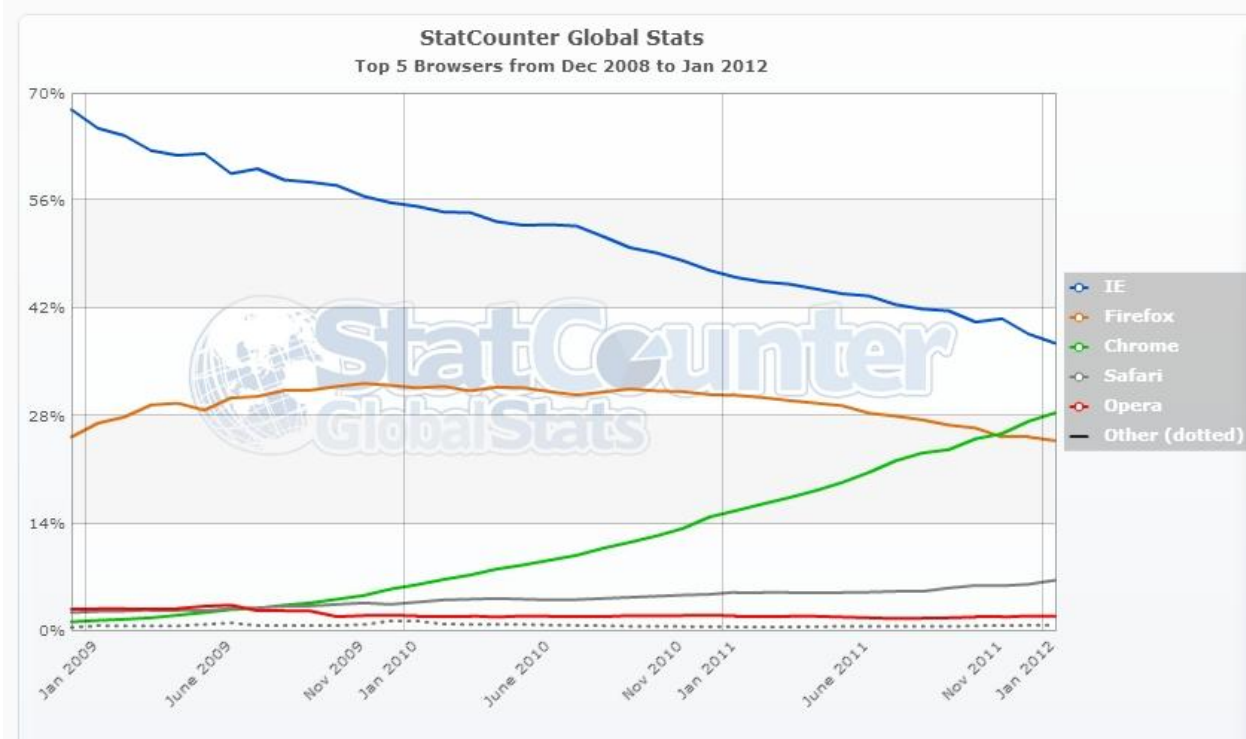

- Actual supported browsers
- Reasons to support multi-browser
- What's the impact?
- Roadmap
- Other interfaces
- Demo

Actual supported Browser

- IE 7,8,9
- ... For Innovator Client
- Everything else for your custom clients

Trends

Reasons to support (or not) multiple browsers

- More browsers to support means more documentation
- Integration with desktop software changes
- Allow Mac users to use Aras Client.
- Helps first access

What's the impact

- Minimum Changes
 - Interface should stay as flexible as it is.
- Two client folders on server for now
- Will multiply the number of platforms allowed to connect to Aras
- Becomes Free of Activex !

Roadmap

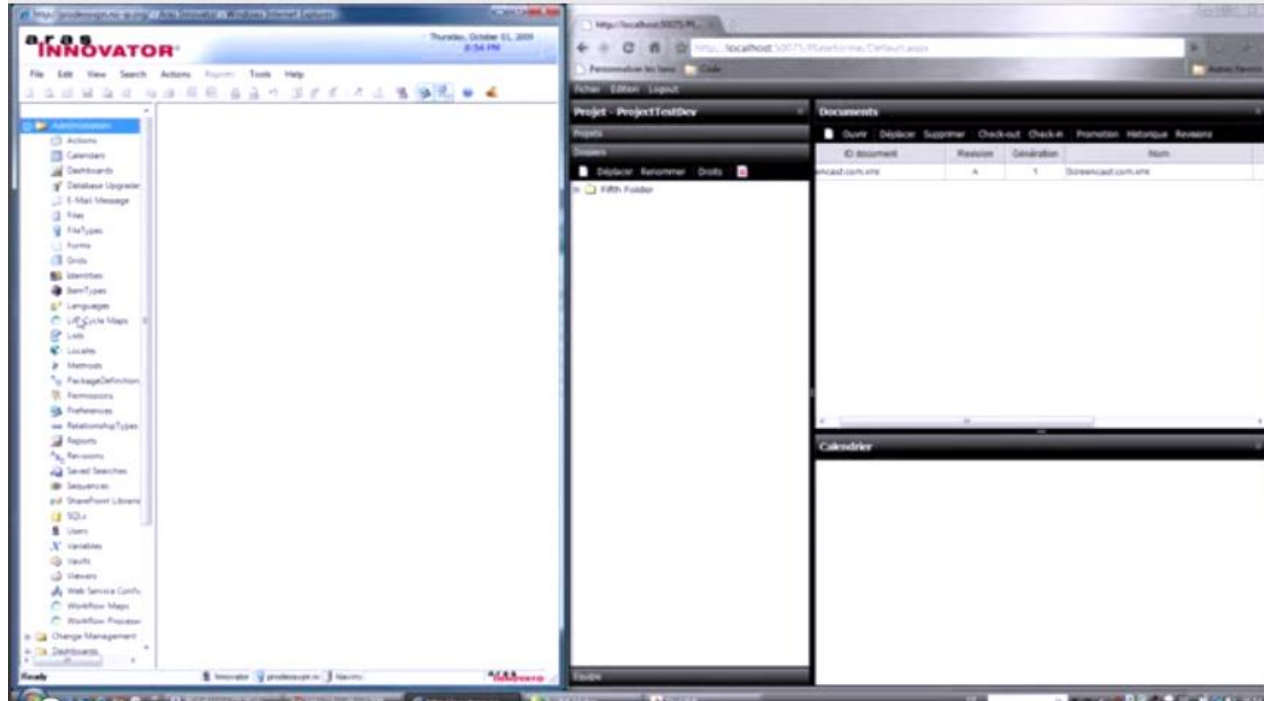

Other interfaces – Visual Studio .net webapp

The screenshot shows a web browser window displaying a login page. The page has a form with fields for 'Logins' (containing 'admin') and 'Password', and a 'Button'. Below the form is a table with the following data:

Other interfaces – Full custom

The interface is divided into several sections:

- Left Sidebar:** Contains four icons: a power button, a gear (settings), a wrench and screwdriver (tools), and a question mark (help).
- Top Panel (OUT):** Titled "OUT", it displays a table of "Project Shared Files".

Document Name	Version	Project	Created by	Size	Date
poweredbyprodeos.png	A	Arbor Press	InnovatorAdmin	7.54 ko	2010-01-21

Below the table are two input fields: a text field containing "1/1" and a dropdown menu set to "10".
- Bottom Panel (IN):** Titled "IN", it displays a table of "Personal Files".

Document Name	Version	Project	Created by	Size	Date
Prodeos	0000	0000	0000	0000	00/00/0000

Below the table are two input fields: a text field containing "1/1" and a dropdown menu set to "10".
- Right Sidebar:** Contains four icons: a download icon, a plus sign (add), a person with a speech bubble (help), and a recycle bin.
- Tooltip:** A callout box points to the "IN" panel with the text "Support with Transaction Log Screen".
