- Network, Participate in discussions, exchange Ideas & learn something new

The Minerva Momentum

- 12 Years of experience in the PLM Industry
- 3 Years working with Aras
- 8 Industries (Automotive, EHT, Med Dev, Apparel, Aerospace, Defense, Industrial, Infrastructure)
- 180% No of Customers
- 100% Year on Year growth
- 2 The number of consultants
- 2 Extra regions we have extended to
- 1 Partner in Europe
(No of Implementation & Clients under subscription)

Utilizing knowledge to reduce implmentation

Office Connector

Provides a seamless integration between Aras and MS Office. Create, update and review documents and properties in Aras directly from MS Office.

Permissions Manager

To simplify the process of managing permissions for external partners in Aras Innovator, Minerva has developed a new add-on solution. The Minerva Permissions Manager makes it possible and easy to give an external party access to certain parts, products or files in Aras Innovator.

Import Tool

In order to make data transfer easier Minerva has developed an Import Tool that can import data from xls and csv to Aras. The Import Tool can be used to import both new parts and changes to existing parts in Aras.
