# **Document Conventions**

Convention	Description
Bold	Emphasizes the names of menu items, dialog boxes, dialog box elements, and commands. Example: Click <b>OK</b> .
Code	Code examples appear in courier font. It may represent text you type or data you read.
Yellow highlight	Code highlighted in yellow draws attention to the code that is being indicated in the content.
Yellow highlight with red text	Red text highlighted in yellow indicates the code parameter that needs to be changed or replaced.
Italics	Reference to other documents.
Note:	Notes contain additional useful information.
Warning	Warnings contain important information. Pay special attention to information highlighted this way.
Successive menu choices	Successive menu choices may appear with a greater than sign (>) between the items that you select consecutively.
	Example: Navigate to <b>File</b> > <b>Save</b> > <b>OK</b> .

The following table highlights the document conventions used in the document:

# **1** Overview

This document provides detailed instructions for the installation of the Aras Office Connector integration between Aras Innovator and Microsoft Office. The steps described in this document are intended to allow a novice administrator to install Aras Office Connector. However, more general knowledge of system administration, network deployment, and Aras Innovator administration is recommended.

The following are the basic sequence of steps to fully install the Aras Office Connector.

- 1. Install Aras Innovator.
- 2. Install Aras Office Connector components in Aras Innovator.
- 3. Install Aras Office Connector components to Microsoft Office.

**Note:** The following procedures are based on new installations of Microsoft Office and Aras Innovator, and you should contact your vendor for assistance if you are working with a customized instance of either product.

# **2** Installing Aras Innovator

The first step required to install Aras Office Connector is to set up the Aras Innovator instance that will be used. This section describes the three major steps for setting up your Aras Innovator instance for use with Aras Office Connector.

## 2.1 Aras Innovator

The first step is to install Aras Innovator. Subscribers can get the Aras Innovator CD Image from the Aras FTP site in the InnovatorLatestRelease folder.

Get the Installation documentation for the Aras Innovator instance from the Documentation folder of the Aras Innovator CD Image.

At the time of release, the following version of Aras Innovator is supported by the Aras Office Connector 27:

Aras Innovator 27

If you are using an earlier version of Aras Innovator, please upgrade before installing the connector. For any upgrade assistance, consult Aras Support (<u>support@aras.com</u>) before installing Aras Office Connector.

### 2.2 Confirming the Aras Innovator Installation

Use the following procedure to check if your Aras Innovator code tree and database meet the minimum requirements to apply the Aras Office Connector Solution AML:

- 1. Log in to Aras Innovator as an administrator.
- 2. From the Main Menu select Help --> About.
- 3. Confirm that the dialog shows the following:
  - o Release 27
- 4. Close the dialog.
- 5. From the TOC, select Administration\Variables.
- 6. Confirm that the following variable is listed:

Version Major	Version Minor	VersionServiceUpdate	VersionLabel
14	0	15	Release 27

### 2.3 Feature License Key

Aras Office Connector requires a Feature License to run. To check whether a valid Feature License exists in the Aras Innovator Database:

- 1. Log into Aras Innovator as an administrator.
- 2. Go to Administration\Feature Licenses.
- The Aras Office Connector is activated with the Feature License provided for the Subscription. If a Subscription feature license is found, check the expiration date to confirm that the license is still active.

#### 2.3.1 Requesting a Feature License

In order to request a feature license activation key, customers with an active Aras subscription can send an email to <u>licenses@aras.com</u> or to their account representative using the following format:

- Subject "Aras Office Connector Activation Key Required"
- Body Version of Aras Innovator

You will receive a reply containing the Feature License activation key.

#### 2.3.2 Installing the License

Once you have the activation key, install the feature license as follows:

- 1. Log into Aras Innovator as an administrator.
- 2. From the main menu toolbar, select Tools --> Admin --> Licenses --> Activate Feature.

	Activate Feature X
	Activation Key
	Activate Cancel
3.	Paste the acquired activation key and click Activate Feature button.
	A success message similar to the following should appear.
	Activation Successful X
	Aras.EssentialsSubscription
	Expiration Date: 8/31/2021
	ок

# **3 Installing Aras Office Connector Server** Components

Once the installation of Aras Innovator is complete and confirmed, the Aras Office Connector must modify the Aras Innovator database with the metadata required to run the integration. Before applying these changes, you should confirm you have all required components.

#### **Requirements:**

- Aras Innovator 27
- Aras Office Connector Feature License
- Aras Update Tool

or

Aras Innovator Package Import Export Utilities

### 3.1 Notification and Backup

1. Notify users that the system will be down at a scheduled time, and they should log out of the system prior to the start of the process.

**Note:** It is best to give at least 24-hour notice, as well as a reminder 15 minutes prior to the upgrade.

- 2. Backup the database.
- 3. Place this file in a safe location, as it will be necessary to restore from it if the process fails.

### 3.2 Applying the Aras Office Connector AML Package

It is possible to install Aras Office Connector using the Automated Installation Option (using the Aras Update tool) or the Manual Installation Option (using the Aras Import Tool).

#### 3.2.1 Automated Installation Option

- 1. Copy and unzip the Aras Office Connector CD Image on the local computer.
- 2. Enable the Super User login.
- 3. Launch the ArasUpdate.exe file as administrator.

On a default installation, the ArasUpdate.exe file can be found in the C:\Program Files (x86)\Aras\Aras Update\ directory.

4. Click on the **Local** option on the left sidebar and then add the package reference to Aras Office Connector.

The package should point to the top level of the Aras Office Connector CD Image.

5. Select the appropriate logging option and click **Next**.

The logging option is used to record the installation attempt and can be used to troubleshoot issues.

💦 Aras Update - Select components for installation	-		×
			?

	Back		Install		Ca	ncel	

- Server URL = The connection URL for Aras Innovator
- **Database** = The target Aras Innovator database
- Username = root
- Password = Password for "root" login (Default is "innovator")

Aras Update should import everything required for Aras Office Connector.

7. After the import is complete, disable the Super User login.

#### 3.2.2 Manual Installation Option

- 1. You will need to import the database package with the Package Import Export Utilities (For more information using this tool, please see the *Aras Innovator 27 Package Import Export Utilities* documentation.)
  - a. You will need to enable the "Super User" login to perform this step.
  - b. Browse to the \PackageImportExportUtilities\Import\ folder and run the Import.exe file

Import			- 0
port Settings Exit About

  - 8. Available for Import = Check "MSO Defaults"
  - 9. Type = Merge
  - 10. Mode = Thorough Mode
- b. Click the **Import** button again.

**Note:** Remember to disable the "Super User" login once you are done. This login should not be enabled in production.

### 3.3 Confirming the Installation

Use the following procedure to check if your database has been updated correctly:

- 1. Log in to Aras Innovator as an administrator.
- 2. From the TOC, select Administration\Variables.
- 3. Confirm the following variable:

Name	Value
Office Connector	14.0.4

If at any time the installation fails, revert to your backups and contact Aras Support at support@aras.com.

# 4 Installing the Aras Office Connector Client Components

The Aras Office Connector must modify Microsoft Office to add the integration components. Before applying these changes, you should confirm your installation of Microsoft Office meets the minimum requirements to run the Aras Office Connector integration.

#### **Requirements:**

- Windows 10, or Windows 11
- Microsoft Edge WebView2
- Microsoft Office 2016 (Enterprise or Professional editions recommended)
- Microsoft Office 365, Desktop version
- Microsoft Office 2019 (Enterprise or Professional editions recommended)
- Microsoft Office 2021 (Enterprise or Professional editions recommended)

### 4.1 Installing the Microsoft Office Add-In

The Add-In requires that Microsoft Edge WebView2 be installed on the client machine. Microsoft Edge WebView2 is used by Aras Office Connector to handle logins into Aras Innovator.

**Note:** If Microsoft Edge WebView2 is not installed on the client machine, the installation process will automatically download and install it.

- 1. Shut down all Office programs on the client PC:
  - o Microsoft Outlook
  - Microsoft Word
  - Microsoft Excel
  - Microsoft PowerPoint
  - o Microsoft Visio
- 2. Copy the ArasOfficeConnectorSetup.msi to the Client PC.
- 3. Run the ArasOfficeConnectorSetup.msi

4. Click Next.

5. Accept the End-User License Agreement and click Next.

# **5** Post Installation

It is recommended that you review the *Aras Office Connector 27 – Administration Guide* after the installation is complete. Additional changes to the Document Form and Document Class Structure may be required to use all features.

For end-users, the *Aras Office Connector* 27 - *User Guide* is available from the Documentation folder of the CD Image. Additionally, the on-line help can be referenced from the Aras Ribbon in Office or directly at <u>https://www.aras.com/help/office/14-0-4</u>.

# **6 Upgrading from a Previous Version**

### 6.1 Upgrading from version 12 of Aras Office Connector

Upgrades from Office Connector version 12 to version 27 are done as part of the upgrade services of Aras Innovator. The upgrade Services are a benefit of a Premier Subscription package and can be requested as a service from Aras Support.

**Note:** When requesting Upgrade Services for an upgrade of Aras Innovator, notify Aras Support that your production instance includes Aras Office Connector.

### 6.2 Upgrading from version 14 of Aras Office Connector

The files necessary to upgrade Aras Office Connector 14 to version 27 are available in the 14.0.4 CD image, inside the **Aras Office Connector 27 Upgrade Patch.zip** file. For upgrade instructions, please refer to the *Aras Office Connector 27 - Upgrading from Version 14* guide.
