3 **Troubleshooting**

If you have an earlier version of Aras Update installed and you run the Aras Update installer, then you will see the following error message:

![Windows Installer]

Another version of this product is already installed. Installation of this version cannot continue. To configure or remove the existing version of this product, use Add/Remove Programs on the Control Panel.

To resolve this, un-install the earlier version of Aras Update and then run the installer msi file again.
