Another exciting month! More awards, new programs, and customer business results achieved. Read on to learn more!

DEMO RECORDING - Structural Concepts Demos Sales Order Configuration Workflow

Structural Concepts Corporation has grown by more than 30% over the past 2 years and has used the Aras solutions to scale the business by extending their existing Aras implementation for PLM to include sales order configuration and manufacturing process planning.

Structural was named a winner of the *2007 Progressive Manufacturer of the Year Award* by Managing Automation for their use of Aras and the business results achieved.

Viktor Anderson, Director of Engineering for Structural Concepts, has created workflows himself to extend the standard Aras solutions.

View a quick demo recording conducted by Viktor demonstrating the customizations he has made.

Aras Offers Path Forward for Agile Customers

Recently Oracle announced it would acquire Agile Software leaving customers who do not want to be forced to upgrade to an expensive J2EE Oracle system without an option for the future.

Aras has come to the rescue by providing a simple way to move ahead for Agile customers with the Agile Path Forward migration program. Benefits include:

- Proven PLM business solutions with comparable functionality
- Additional solutions for NPI new product introduction, FMEA, and RoHS compliance
- No cost for software
- Unlimited users for free
- Enterprise-class support options
- Comprehensive migration services

The Aras migration program provides a clear & simple option that enables Agile customers to move ahead with confidence.

WEBCAST - APQP Secrets to Success

Earlier this month Angelo Scangas, President of QSG, conducted a webcast with Aras covering key considerations and best practices to implement advanced product quality planning [APQP] effectively for achieving product launch performance.

Aras New Office Location

In July Aras will be expanding to new offices. The new location will provide further room to grow. In addition the new facility will include a new high tech training room for larger hands-on sessions.

Due to the move we will not be conducting Discovery Seminars or Training Sessions in July.

If your business needs training on the Aras solutions, contact us directly and we can do an on-site session specifically for your company.
