People all over the world are recognizing the power of our advanced solutions and open approach! And there are lots of opportunities coming up to meet with community members and share best practices; the European Aras Community Event, the International CMII Conference, the PLM Summit, and whole series of training sessions... Come, Connect, Collaborate!

REGISTER NOW - Aras Community Network: Europe 2008 - October 17th

The European community event is filling up. If you are planning to attend, you need to register soon to reserve your seat!

Keynote speaker will be Prof. Dr. Martin Eigner, renowned strategic PLM thought leader, Professor at the Technische Universität Kaiserslautern, and founder of Eigner+Partner [acquired by Agile / Oracle]. He will provide his personal insights on the Aras revolutionary innovation in PLM.

Date: Friday October 17, 2008

Location: Unterschleißheim, Germany (just outside Munich)

No Registration Fee: Free to Attend (Space is Limited)

You will gain valuable knowledge from other corporate community members so that your company can achieve PLM success with the Aras solutions.

It's FREE to attend, and space is limited so registration is required.

FEATURED PROJECT - Community Solution Demo Database

This month we thought it would be useful to showcase a bunch of different Aras community solutions from the Project site.

So, now you can get a development demo that includes a number of the different community solutions from the project site.

When you load this database you get a wide variety of community solutions from functionality that is used in production at global companies to capabilities that people have contributed as a prototype starting point. And there's data for each solution!

NOTE: You should load this package into a clean installation and remember this is a development system database, there are bugs... and there are certainly some interesting Aras tricks and screen UI's that are not in the initial Aras Innovator download (you are welcome to re-purpose and re-use anything you find useful!).
